#### Market Time

The average Days On Market(DOM) shows how many days the average Property is on the Market before it sells. An upward trend in DOM tends to indicate a move towards more of a Buyer's market, a downward trend a move towards more of a Seller's market. The DOM for November was 79, down -19.4% from 98 days last month and down -45.9% from 146 days in November of last year. The November 2017 DOM was at its lowest level compared with November of 2016 and 2015.

The Selling Price per Square Foot is a great indicator for the direction of Property values. Since Median Sales Price and Average Sales price can be impacted by the 'mix' of high or low end Properties in the market, the selling price per square foot is a more normalized indicator on the direction of Property values. The November 2017 Selling Price per Square Foot of \$263 was down -1.1% from \$266 last month and up 8.2% from \$243 in November of last year.
