Market Time

The average Days On Market(DOM) shows how many days the average Property is on the Market before it sells. An upward trend in DOM tends to indicate a move towards more of a Buyer's market, a downward trend a move towards more of a Seller's market. The DOM for December was 121, down -23.4% from 158 days last month and down -33.5% from 182 days in December of last year. The December 2018 DOM was at its lowest level compared with December of 2017 and 2016.

The Selling Price per Square Foot is a great indicator for the direction of Property values. Since Median Sales Price and Average Sales price can be impacted by the 'mix' of high or low end Properties in the market, the selling price per square foot is a more normalized indicator on the direction of Property values. The December 2018 Selling Price per Square Foot of \$208 was down -13.0% from \$239 last month and down -10.0% from \$231 in December of last year.
